

Bob,

D/Pers wants to head off murmurs that nothing has happened about the personnel survey. He knows that the EAG suggested that a detailed Employee Bulletin be issued after the staff papers have been submitted to EAG indicating that specific actions are being considered.

He feels that we should now put out an initial Bulletin highlighting the fact that the survey has been taken, the response has been great, Agency compares well with other agencies, some problem areas have been identified (telling which ones), and staff papers are now being prepared so that EAG may consider actions to be taken.

Blake has now given a go ahead to release information about the survey. We have no additional feedback from the DCI or the DDCI. One idea suggested by Blake and Janney is to put up some details on the bulletin board.
